

Ferno Ultralite X Series

Full Body Harness

The Australian-manufactured ULTRALITE X is a full-featured harness designed to reduce the chances of suspension trauma while remaining incredibly light and comfortable to wear.

The harness features an innovative cross-style designed to protect the wearer from potential internal injuries by evenly distributing the forces generated during a fall.

The ULTRALITE X adjusts to fit a large range of body shapes and is a popular choice among female users.

Features

- Vest-style donning for intuitive wear
- Breathable leg pads enhance comfort
- Adjustable leg straps with quick connect buckles
- Soft dorsal fall arrest attachment point
- Front fall arrest attachment points store away when not in use

Harness Options

- Alloy or stainless steel hardware
- Dorsal extension
- Neoprene arc flash protection buckle covers
